

Image Matters LLC Nominated for the Loudoun County Chamber of Commerce's 2005 Small Business Awards, in the Category of Technology Business of the Year

Leesburg, VA – October 17, 2005 – Image Matters LLC, a leader in geospatial information technology solutions, was recently nominated by the Loudoun County Chamber of Commerce for their Small Business Award in the Technology category. This nomination recognizes Image Matters as a business that exemplifies achievement and excellence in the local business community.

Image Matters specializes in developing and integrating geospatial technologies with the Semantic Web and other technologies. It is globally recognized for its leadership in geospatial-semantic technology, which will play a key role in the next generation of the Web by adding “intelligent”, location-enabled services.

Image Matters' primary markets are homeland security, defense and intelligence, and environmental systems. Business partners include ESRI, SAIC, Lockheed Martin, Cougaar Software and Sun Microsystems.

Janine Hussey, COO of Image Matters LLC said, “It is very gratifying to receive this nomination. We have a strong sense of community at Image Matters and to be recognized for our achievements by community business leaders strikes a resounding chord. We owe our success to the hard work of the entire Image Matters team. This recognition belongs to all of our employees who've made our vision a reality.”

About Image Matters LLC: Image Matters LLC provides innovative technology solutions. We specialize in the Semantic Web, the Internet, and geospatial and sensor technologies. Image Matters also provides professional services in the areas of system and software engineering, software development, geospatial consulting, data modeling and database development, technology planning and execution, and business communications.
