

Image Matters LLC Continues Expansion of Executive Team

Leesburg, VA – February 13, 2006 – Image Matters LLC, a leader in geospatial and semantic information technology solutions, today announced that Timothy J. Eveleigh, D.Sc., has been named Director of Defense and Intelligence Operations. Dr. Eveleigh’s primary responsibilities will include leading business development efforts and special projects within the Defense and Intelligence sectors.

Dr. Eveleigh brings over 22 years of active duty, reserve, and contractor intelligence analysis and program management experience to this position, recently serving the Joint Staff’s Deputy Directorate for Targets (JCS/J2T) where he led targeting automation programs and provided systems engineering, technology exploration, and program development services in support of the Military Targeting Committee. In addition, he has prior experience in leading large-scale geospatial-intelligence enterprise application development and implementation for the government and private sectors. Eveleigh received a M.S. in Remote Sensing/Geography from the University of Delaware, and recently completed a D.Sc. in Systems Engineering at the George Washington University, where he remains part-time as an assistant professor of engineering.

Commenting on his appointment, Harry Niedzwiadek, Image Matters’ chief executive officer, said, “Tim brings to Image Matters an impressive career of serving defense and intelligence clients at the highest levels. As we continue to embrace future growth opportunities in defense and intelligence, no one is better qualified than Tim to help us reach the next level of success.”

Mr. Niedzwiadek continued, “Specifically, his experience dealing with systems architecture, engineering, and integration for the warfighter are unsurpassed. His forte in the geospatial aspects of C4ISR management, intelligence databases, and all-source intelligence analysis is ideally suited to enhancing Image Matter’s already strong commitment to geospatial-semantics. We are delighted to welcome Tim to our team.”

About Image Matters LLC: Image Matters LLC provides innovative technology solutions, specializing in geospatial, Semantic Web, Internet and sensor technologies. Image Matters also provides consulting and professional services in the areas of system and software engineering, software development, geospatial consulting, data/knowledge modeling and development, and technology planning and execution.
