Image Matters LLC Moves to an Expanded Facility

Leesburg, Virginia – Image Matters LLC, a systems engineering and software development company, announced that they have relocated their Headquarters to an expanded facility at 201 Loudoun St. SW, Leesburg, Virginia. Image Matters has experienced significant growth throughout its four years in Leesburg and is now one of the world's premier authorities in geospatial semantic Web technologies. Loudoun County's Economic Development - Main Street Loudoun Small Business Manager, M.E. Yancosek Gamble said, "The expansion of Image Matter's headquarters in Loudoun is a testament to the County's reputation for high quality workforce, research and technology facilities. I'm pleased that Image Matters and other technology companies recognize that Loudoun County is an excellent place for high-tech businesses."

"We are pleased to be able to expand and stay in the heart of Leesburg," said Harry Niedzwiadek, CEO. "Downtown Leesburg has been a great location for our business. Customers and employees alike frequently comment on how much they like the location." According to Betsy Fields, Economic Development Director for the Town of Leesburg, "Image Matters has done what we anticipate other downtown businesses will do and that is to grow in size and scope in a sustainable way."

"This move represents a significant growth step for Image Matters," states Janine Hussey, COO. "We started this business six years ago from our home in Round Hill, VA."

Image Matters LLC, a privately held company, provides Information Technology Services for a wide range of commercial and government clients. For more information about Image Matters, visit www.imagemattersllc.com.
