

## **Position Open: Java Software Developer**

Join our award-winning software development team to work on leading-edge Web, Knowledge Management and Geospatial technologies in a vibrant, creative small business environment. We are seeking individuals who:

- share our passion for making a difference through commitment to high performance, integrity and customer satisfaction,
- are team-oriented, high performers with aptitude and desire to learn and contribute,
- are comfortable working in very agile, collaborative, user-focused environments, and
- enjoy applying technology in innovative ways to solve complex problems.

The incumbent will be responsible for designing, developing, testing, and documenting software modules, components, applications and products as member of a collaborative development team. Candidates should have a degree in EE, CS, Math or equivalent experience and 1-3 years developing software applications in a professional (full-time) capacity. Must be proficient with Java programming and demonstrate knowledge of Java class libraries and basic computer science algorithms. Experience developing applications or Web-services (REST/SOAP) using the following technologies is a plus: J2EE, Spring, XML, JSON, Eclipse RCP, OSGi, AJAX, JavaScript, Flash, Swing, Hibernate, JDBC, and SQL.
