

Software Developer Intern – Leesburg, VA or Bloomington, IN

Would you like an internship that engages you in challenging and meaningful work? Would you like to be a part of a team that involves you in solving complex problems? Are you looking for a summer experience that goes beyond the job? If the answer is yes, then we have opportunities that may be a great fit for you.

We are hiring talented and motivated Software Engineering, Computer Science, Data Science, Analytics and Mathematics students to add to our award-winning Development Teams. During our 10-12 week long summer internship program you will be given assignments that expand on the skills you have developed in school and enhance your professional development.

Successful candidates will be: adaptable, analytical, problem solvers, good communicators, and team players. To qualify, candidates must be enrolled in a specified program and scheduled to graduate between 2020 and 2023. Prior internship experience, and a minimum overall GPA of 3.0 is strongly preferred. Candidates are encouraged to apply early as hiring is conducted on a rolling basis.

[Intern Program](#)

Image Matters' intern program offers exciting learning, networking, and social activities. Start and end dates will be determined based on the selected candidate's school schedule. Interns are expected to work full-time for 10-12 weeks during the summer. Housing accommodations, if necessary, should be arranged by the individual.

[Benefits](#)

We offer a competitive internship compensation package, including relocation at graduation/full-time offer acceptance to qualified individuals (as positions are available).
